

# Smart Canteen Management. Redefined.

A powerful cloud-based solution to modernize how organizations manage food services across offices, factories, and campuses.

**CenCafe**  
Smart Dining, Simplified Management

# Revolutionize Your Canteen Operations with CenCafe

## Cloud-Based Architecture

Access and manage canteen operations anytime, anywhere with secure, backed-up, real-time data.

## Multi-Canteen Management

Handle multiple canteens, each with its own setup, while centralizing oversight and reporting.

## Flexible Meal Intervals

Define any number of meal types with custom serving times like breakfast, lunch, dinner, or midnight snacks.

## Dynamic Menu Configuration

Build rotating or fixed menus by day, canteen, and meal interval with full customization via an intuitive admin panel.

## Dual Pricing System

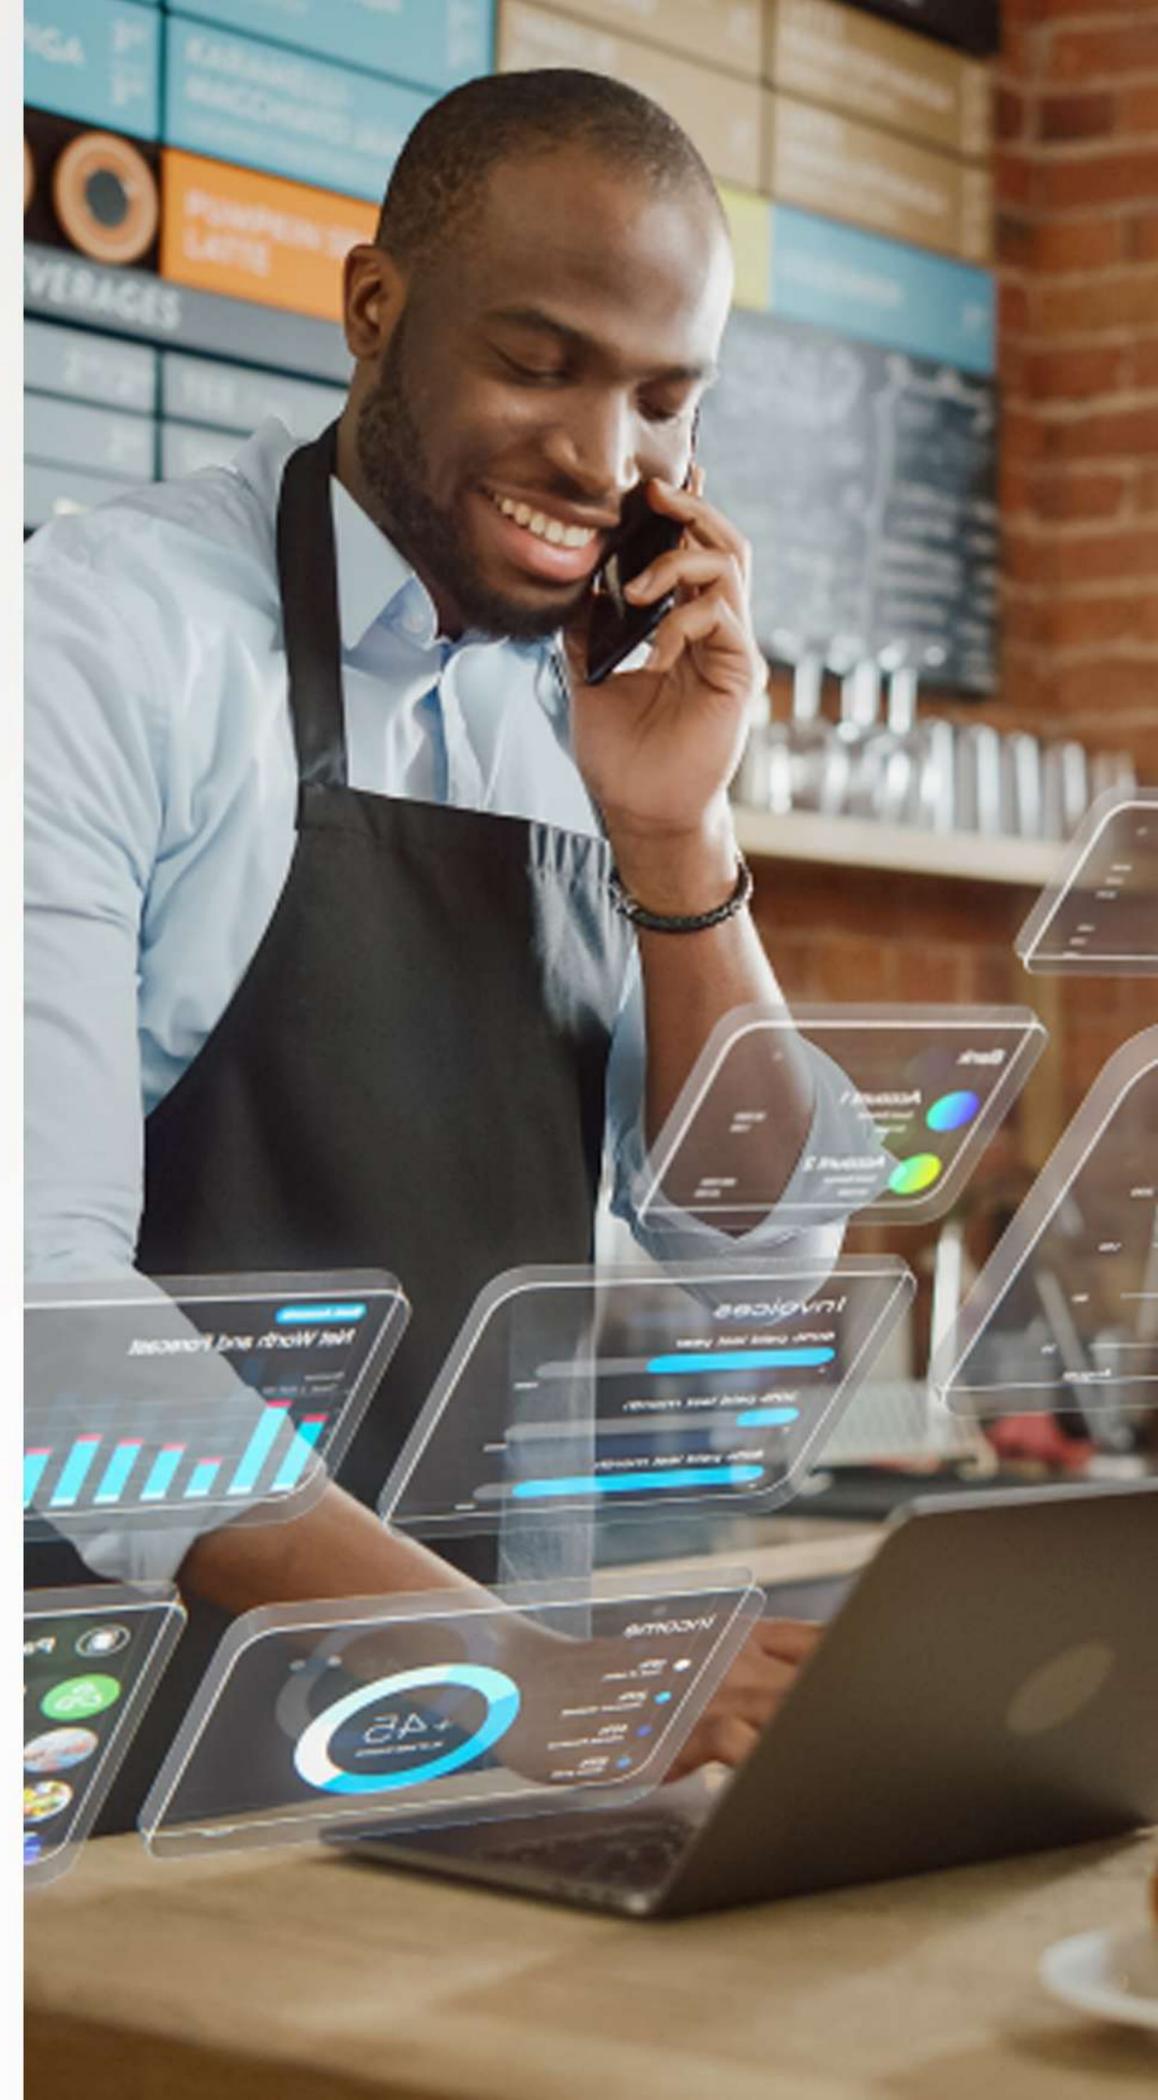

Assign both company-sponsored and employee-paid prices for each menu item, adjustable per location or time.

## Advanced Price Rules

Implement smart pricing logic:

- 1<sup>st</sup> Order : Free for employee
- 2<sup>nd</sup> - 5<sup>th</sup> Orders : Split cost
- 6<sup>th</sup> Onward : Employee pays full

# Smart Features and Employee Experience

# FULLY ENABLED

## Self-Service Ordering

Employees can place orders using face recognition, RFID, fingerprint, or QR code contactless and seamless.

## Real-Time Inventory Tracking

Automatically stop orders for items once inventory runs out eliminating overselling and improving kitchen operations.

## Dynamic Menus by Time

Menus update automatically depending on time of day or day of the week.

## Cashless Transactions

Assign monthly credits to employees enabling faster, cash-free ordering.

## Order Quota Management

Control consumption with daily/monthly order limits per user or item.

## HRM Integration & Shift-Based Eligibility

Employees can place orders using face recognition, RFID, fingerprint, or QR code contactless and seamless.

## Visitor Meal Management

Generate QR-based access for visitors with restricted menu options and quotas.

# Insights, Reporting and Innovation

## Live Dashboards

View real-time stats on menus, orders, and stock levels customized per canteen and user role.

## In-Depth Reports

Export reports by employee, date range, meal type, or location helping optimize food service and cost control.

## AI-Powered Forecasting (Coming Soon)

Predict food demand based on historical trends to reduce waste and streamline meal prep.
